

Georgia Aquarium  
225 Baker Street NW  
Atlanta, GA 30313

Dear Administrators,

Field experiences are essential to a child's successful educational career, as they provide the spark that touches the heart and teaches the mind. At Georgia Aquarium, we provide learning opportunities that are standards-based and student-centered, with an emphasis on conservation and connecting students to nature.

We are committed to inspiring awareness and preservation of our ocean and aquatic animals worldwide. We do so by providing real world experiences including hands-on interactions in our touch pools, getting immersed in our world class exhibits, learning about the aquatic world and so much more.

Georgia Aquarium has two educational program options for visiting school groups: General Admission and Instructor-Led School Programs.

If your teacher chooses General Admission, they can create a unique experience that takes students on a self-led trip through the entire Aquarium. They can utilize our resources to teach about animal adaptations, biodiversity and human impacts on the environment – and connect them to your curriculum.

With an Instructor-Led School Program, a Georgia Aquarium Educator will host your students on a journey through the Aquarium, exploring grade-dependent topics. Students can interact with open questions, collaborate and problem-solve with our guidance along the way, experiencing a unique day that only a Georgia Aquarium Educator could deliver. The programs we currently provide are designed for Pre-K through High School. They are based on the Georgia Standards of Excellence and are a great tool to enhance your current curriculum.

Please join us and use our ten million gallons of water to help inspire the next generation to protect our world.

If we at Georgia Aquarium can be of any help to you in supporting and sustaining your students, please feel free to call on us at [education@georgiaaquarium.org](mailto:education@georgiaaquarium.org).

Kindest regards,  
Sincerely,

Celeta Thomas-Watson

Director of Education
