Tilapia (Columbia, Honduras, Indonesia, Mexico & Taiwan)
Trout (Canada & Chile farmed)
Tuna: Albacore (US longlines)
Tuna: Skipjack (free school, imported trolls, pole and lines, and US longlines)
Tuna: Yellowfin (free school, trolls, pole and lines, and US longlines)

SEAFOOD SAVVY

Seafood Savvy is an initiative created to educate the public about sustainability issues and encourage them to make environmentally responsible decisions.

Support ocean-friendly seafood
in two easy steps.

1. ASK: "Do you sell sustainable seafood?"
Let businesses know that this is important to you.
2. BUY: From our Best Choices list.
If not available, choose from the Good Alternatives list.

WHAT CAN I DO?

- Use your Seafood Savvy card to make savvy choices.
- Look for the Marine Stewardship Council blue eco-label in stores and restaurants.

- Support ocean-friendly seafood. Ask where your seafood comes from and whether it was farmed or wild caught.
- Use your knowledge to educate others about seafood sustainability.
- Stay informed by visiting www.georgiaaquarium.org/seafoodsavvy

AVOID

Cod: Atlantic (gillnet, longline, trawl)
Conch (imported)
Crab (Argentina, Asia & Russia)
Crab: Blue (FL, GA, LA, MS, NC, SC, TX & VA)
Crabfish (China)
Lobster: Spiny (Belize, Brazil, Honduras & Nicaragua)
Mahi Mahi (imported)
Orange Roughy
Salmon (Canada Atlantic, Chile, Norway & Scotland)

Sardines: Atlantic (Mediterranean)
Sharks
Shrimp (other imported sources)
Squid (Argentina, China, India & Thailand)
Swordfish (imported longlines)
Tilapia (China)
Tuna: Albacore (imported except trolls, pole and lines)
Tuna: Bluefin
Tuna: Skipjack (imported purse seines)
Tuna: Yellowfin (longlines except US)

YOUR CHOICES MATTER

Americans consume an average of 4.8 billion pounds of seafood per year, or 15.8 pounds per person (NOAA). Many of the fish we enjoy are in trouble due to overfishing or destructive fishing and farming practices.

Purchase fish caught or farmed using environmentally responsible practices to support healthy, abundant oceans.

Brought to you in partnership with:

**Monterey Bay Aquarium
Seafood Watch**

BEST
Select these fish first. They are well-managed, not overfished, and caught or farmed responsibly.

GOOD
Okay to buy, but there are concerns with how they are caught or farmed.

AVOID
Take a pass on these for now, they're overfished or caught or farmed in ways that harm other marine life or the environment.

- Not sure how to ask your wait staff **1** Where did it come from?
or grocer if a fish is sustainable? **2** Is it farmed or wild-caught?
It's as easy as **1-2-3!** **3** If it's wild, how was it caught?

GEORGIA AQUARIUM

Georgia Aquarium believes in leading by example regarding stewardship and conservation of the animal world. Therefore, as early as 2003, the Aquarium has participated in, funded and spearheaded numerous research and conservation efforts.

Explore our projects by visiting www.georgiaaquarium.org/conserv

Seafood Watch® is a registered service mark of the Monterey Bay Aquarium Foundation.
