

B4. SPECIES JUSTIFICATION (SUPPLEMENTAL SHEET)

Species:

This species was selected for the study because of the following attributes (select all that apply):

- \Box A large database exists allowing comparisons with previous data
- \Box The anatomy or physiology is uniquely suited to the study proposed
- \Box This is the lowest species on the phylogenetic scale that is suitable for the proposed study
- □ Other:

Explain:

Species:

- This species was selected for the study because of the following attributes (select all that apply):
- $\hfill\square$ A large database exists allowing comparisons with previous data
- $\hfill\square$ The anatomy or physiology is uniquely suited to the study proposed
- □ This is the lowest species on the phylogenetic scale that is suitable for the proposed study

□ Other:

Explain:
