# Introduction

The Georgia Aquarium Education department is dedicated to spreading passion and inquiry to all who enter our doors. Campers will have a whale of a time, meeting exclusively with experts, performing experiments, crafting new designs, and so much more. Camp runs Monday through Friday 9:00am to 3:30pm. Campers will explore the diverse organisms present at Georgia Aquarium, from tiny brine shrimp to the massive whale shark. Campers will discover aquatic realms from their local ecosystems to the distant arctic. Campers will visit all galleries and experience presentations!

We create and foster a fun, safe learning experience. All our educators are certified in First Aid, CPR/AED, and Epi-Pen administration. Georgia Aquarium is a KultureCity Sensory Inclusive certified. To provide the best experience for your camper, we highly encourage you to share any medical or behavioral needs. This information is never shared with other campers or their parents. Additionally, for the safety of all campers and staff, parents or guardians are not permitted to follow or attend camp activities or campers during camp hours. To learn more about KultureCity Sensory Inclusion, please click [HERE](#).

Our camps are offered weekly and are divided into age specific groups: 5 to 7 years old, 8 to 10 years old, 11 to 13 years old, and 14 to 16 years old. These camps are tailored to engage each age specific range, so it is important campers are registered for their age-appropriate camp!

Campers are highly encouraged to ask questions, participate in activities, and share their experiences with parents/ guardians. With enough inspiration, we can work together to create a sea of change in our local waterways down to the ocean creating lasting impacts for the wondrous life that inhabits our world.
