

# Guest Programs

## Team Specialist

**Q: Does the job require a degree, certification, or both?**

**A: No, but a Certificate of Interpretive Guiding from the National Association for Interpretation (NAI) is a bonus!**

**Q: Is there any way to volunteer or shadow with this position?**

**A: Yes! We have volunteers ranging from greeters to animal interpreters to tour guides.**

**Q: Are there any internships that help to get this position?**

**A: Not currently**

Q: What does your average day look like?

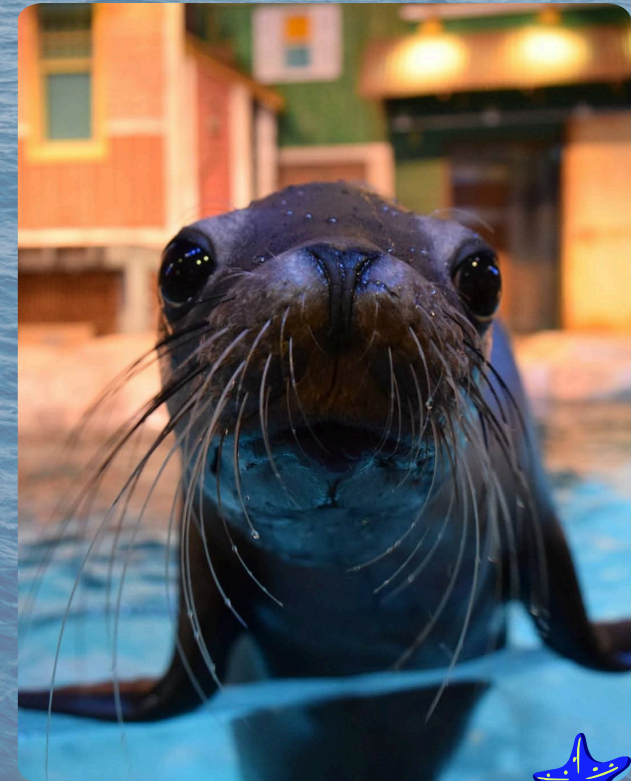

A: We meet at the beginning of each shift to be updated about current events at the Aquarium and receive our schedule. We rotate to different spots on an hourly basis, narrating and interpreting the animals and their habitats, while taking questions from guests. As needed, we are assigned additional roles such as behind the scenes tours, dive show talks, and more.

Q: What path did you take to get to Georgia Aquarium?

A: I obtained my bachelor's degree in biology, was hired part-time and am now a full-time employee that will take on whatever responsibilities are needed!

Q: What is your favorite part about working at Georgia Aquarium?

A: I love being able to break down difficult concepts so that they are easier to understand for guests. It gives me joy to be close to the animals and talk about science.

*Thank You*
